Professional Experience

Founder and Full Stack Developer

2025 -- Present

Add Spark Digital

- Designed, developed and deployed 6+ full-stack web applications using React.js, Node.js, Express.js, RESTful APIs, MongoDB and MySQL.
- Built responsive frontend interfaces with reusable React.js components, Redux Toolkit and utility-first CSS, improving consistency across projects.
- Developed backend services and REST APIs with Node.js and Express.js, including database integration, CRUD operations and JWT-based authentication.
- Owned software development lifecycle activities including requirements analysis, technical design, implementation, testing, debugging, deployment and maintenance.
- Implemented performance, SEO and maintainability improvements while making architecture and technology decisions for evolving requirements.

Relevant Projects

Full Stack Developer, WordPress E-commerce Website

- Developed a responsive e-commerce web application with product catalog, cart and checkout workflows using WordPress.
- Implemented website performance and SEO optimization to improve user experience and search visibility.

Full Stack Developer, Business and Travel Agency Websites

- Built responsive, multi-page business websites with custom booking forms, contact forms and CMS-driven content architecture.
- Integrated frontend layouts with functional forms and content management workflows.

React.js Developer, Portfolio and Landing Page Suite

- Designed and developed responsive, conversion-focused landing pages using React.js and reusable UI components.
- Used A/B testing to iterate on page layouts and improve user engagement.

Education

DD College

Bachelor of Computer Applications (BCA)

Expected Graduation
